
To my readers,

Ectasy Hearts will be on-hiatus until May 26th.

For that, I sincerely apologize.

These past few weeks I tried everything I could
to keep up but I can no longer prolong the inevitable.

I am facing a serious health problem (Chronic Lung Inflammation). My medication requires 60 Intramasuclar injection shots for two months. I literally have to take a shot everyday for 2 months straight.

I have completed around 30+ shots but the side effect is really putting a stress on both my left and right arm to the point I could no longer do any work.
It is indeed, very painful. A very painful experience.

I am aware of the consequences upon taking this leave but rather than rushing every chapter, I have decided to recuperate and comeback with a quality story.

I can appreciate how dissapointed you are, however Chapter 14 is one of the crucial chapters I can no longer afford to rush.

Once again, I am truly sorry and humbly ask for your understanding.

-SILENT :)

ECSTASY HEARTS
